

# After School Programs

Below is a list of local after school programs. Please note that Success Academy Charter Schools does not endorse, sponsor, or have any affiliation with these programs. We recommend reaching out to after school programs over the summer to reserve your spot.

- You must inform the main office if your scholar is attending an after school program and what day(s) he/she will be attending so we can ensure their pick-up list is accurate.
- If your scholar is NOT attending their after school on a regularly scheduled day, you must let the main office know by 12:00 PM and also notify the program.
- After school programs must pick-up scholars on time.
- We will provide the programs with a copy of our academic calendar. If the after school program is closed you must make alternative plans to ensure your scholar is picked up on time.
- Scholars cannot be picked up by car service or van unless they are escorted by a parent or guardian, even if such transportation is operated by an after school program.
- If a parent meeting is required during dismissal you will need to schedule an alternative meeting with your scholar's teacher
